## Safety Information

### About Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by sitting farther from the television screen, using a smaller television screen, playing in a well-lit room, and not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

**Other Important Health and Safety Information** The Xbox Instruction Manual contains important health and safety information that you should read and understand before using this software.

### Avoid Damage to Your Television

**Do not use with certain televisions.** Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of game play may "burn in" to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner's manual to determine if video games can be played safely on your set. If you are unable to find this information in the owner's manual, contact your television dealer or the manufacturer to determine if video games can be played safely on your set.

Unauthorized copying, reverse engineering, transmission, public performance, rental, pay for play, or circumvention of copy protection is strictly prohibited.

## GETTING STARTED

### Using the Xbox Video Game System

1. Set up your Xbox video game system by following the instructions in the Xbox Instruction Manual.
2. Press the power button and the status indicator light will light up.
3. Press the eject button and the disc tray will open.
4. Place the *Crash Nitro Kart*™ disc on the disc tray with the label facing up and close the disc tray.
5. Follow on-screen instructions and refer to this manual for more information about playing *Crash Nitro Kart*™.

### Avoiding Damage to Discs or the Disc Drive

To avoid damage to discs or the disc drive:

- Insert only Xbox-compatible discs into the disc drive.
- Never use oddly shaped discs, such as star-shaped or heart-shaped discs.
- Do not leave a disc in the Xbox console for extended periods of time when not in use.
- Do not move the Xbox console while the power is on and a disc is inserted.
- Do not apply labels, stickers, or other foreign objects to discs.

### Using the Xbox Controller

1. Insert the Xbox Controller into any controller port of the Xbox console.
2. Insert any peripherals (for example, Xbox memory unit) into controller expansion slots as appropriate.
3. Follow on-screen instructions and refer to this manual for more information about using the Xbox Controller to play *Crash Nitro Kart*™.

Left thumbstick – Steer

Directional pad – Steer

**A** button – Gas

**X** button – Brake/Reverse

**B** button – Use Power-up/Item

**Y** button – Toggle Map/Speedometer

White button – Team Frenzy

Black button – Look Back/Rear View

Either right or left trigger – Hop/Boost

BACK button – Change View

## STORY

*Emperor Velo and the entertainment-obsessed aliens of his empire have kidnapped Crash and his friends, as well as Dr. Cortex and his cronies, to race in the Galactic Circuit! Faced with the threat of Earth's destruction, both teams submit to his whims. Dr. Cortex and his team of evildoers plan to defeat Velo in the final showdown, which will determine who will return to Earth as its conqueror, but they'll need to get past Crash and Team Bandicoot, who plan to thwart Team Cortex and return home in time for a nap. In order to face Velo, however, they'll need to win every race in the Circuit, a competition that spans numerous alien worlds and features a motley crew of the Emperor's fastest competitors.*

## MAIN MENU

Navigate the menus by pressing the directional pad or the left thumbstick up or down. Select a menu item by pressing the **A** button or **START** button, and go back by pressing the **B** button.

- **ADVENTURE** – Adventure is a single-player mode that takes you through the *Crash Nitro Kart*™ story. Choose this to race against Velo and his minions, and get Crash (or Cortex!) back to Earth safe and sound. You can also unlock hidden features in this mode.
- **SINGLE-PLAYER** – Choose this mode to race against computer opponents in a Quick Race or a Cup Race, race with a computer-controlled buddy in Team Race, or play Time Trial to set your best time records and unlock ghost challenges.
- **MULTIPLAYER** – Select this mode to race or battle against up to three of your friends.
- **BEST TIMES** – View saved best times for each track and challenges.
- **OPTIONS** – Adjust the sound and controller options for each player here.
- **EXTRAS** – Access unlocked extras here, such as the Arena Editor and Cut Scenes.

## RACE MODES

*Crash Nitro Kart™* has six racing modes. Some of them are free-for-all, and some can be played as a team.

- **ADVENTURE** – In Adventure mode, you race through all the different tracks and arenas, collecting as many Trophies, Relics, Boss Keys, CNK Tokens, and Gems as you can. Learn more about Adventure mode on page 9. This mode is single-player only.
- **RACE TIME TRIAL** – Race Time Trial is a one-player mode where you try to set the best time on any of the tracks in the game. In this mode, there are no other racers to slow you down, and no crates to help you out. Jump and boost your way through three laps as fast as you can. After you finish the race, you can save your “ghost” (a replay of your race). The next time you play, you can load a ghost or challenge your friends to beat your best time. Beat the best times to unlock and challenge the galactic champions’ saved ghosts. This mode is single-player only.
- **LAP TIME TRIAL** – This mode is just like Race Time Trial, except that you’re racing to get the best time for a single lap around the track. After you finish a lap, your “ghost” will appear. The ghost is a replay of your fastest lap. Whenever you get a better time on a lap, the old ghost will be replaced by the faster one. This mode is single-player only.

- **QUICK RACE** – A Quick Race is the fastest way to get your race on. Just pick your racer, select a track, and race! You can also adjust the computer players’ skill level, as well as the number of laps. This mode is single-player only.
- **TEAM RACE** – Join forces with a computer-controlled buddy to win the race! Stay close to your teammate to charge up your Team Meter. When it’s full, press the White button to activate team frenzy—then blast your opponents and take the lead! This mode is single-player only.
- **CUP TOURNAMENT** – In a Cup Tournament, you compete against other racers on three different tracks. At the end of a track, the racer in first place gets nine points. The second place kart is awarded six points. Third place gets three points. Fourth place gets a measly one point. At the end of the three tracks, the player with the most points wins the cup. This mode can be played by up to four players.

## BATTLE MODES

In Battle Mode, instead of racing on tracks you speed around battle arenas, collecting weapons and attacking your opponents. There are five battle modes in *Crash Nitro Kart*. Each mode can be played by two to four players.

- **LIMIT BATTLE** – In this game, the object is to hit your opponents with weapons and traps as often as you can while getting out of the way of their attacks. Zoom around and smash item boxes to pick up offensive or defensive weapons. You set a point and a time limit when you start the game, and whoever gets enough points or has the most points when time runs out wins! You can play this mode free-for-all or with teams.
- **LAST KART DRIVING** – In Last Kart Driving, you play until you run out of lives. You lose a life every time you get hit by a weapon or hazard, or fall into a pit. Get rid of your opponents before they get rid of you. The last kart driving wins! You can play this mode free for all or with teams.
- **CRYSTAL GRAB** – In Crystal Grab, you fight against your opponents to collect all the crystals in the arena. Attack your opponents to get them to drop their crystals, and then steal them. But be careful, they can do the same to you. You can play this mode free-for-all or with teams.

- **CAPTURE THE FLAG** – The object of this two-team game is to capture the other team's flag and bring it back to your flag. Race your karts to your opponents' side of the map and drive over their flag to grab it, then drive over your flag's base to capture it and score a point. To get enemies to drop your flag, hit them with any weapon. Once they've dropped it, drive over it and it will return to your base. The flags are very heavy though, and will slow down any kart that is carrying one. The game will end when time runs out or when one of the teams has gotten enough points, whichever comes first. This is a team-only game.
- **STEAL THE BACON** – This mode is just like Capture the Flag, except the two teams are fighting over one flag that is situated in the middle of the arena. Speed out and grab the flag, then bring it back to your base.

## ADVENTURE MODE

In Adventure mode, you will journey through five different worlds as you race for your freedom. You'll start out in Velo's Coliseum. From here you can get to any of the other worlds through the World Gates. At first, most of them are locked. You'll have to beat one world to get access to the next one. You will journey to Terra, Barin, Fenomena, and Teknee. Once you're in a world, drive onto a warp pad to start a race. When you win all three trophies in a world, you will challenge that world's champion. If you manage to defeat the champion, you will win a World Key. This key will unlock all of the special modes in that world and the next World Gate. These are the special modes that you can unlock:

**RELIC RACE:** In this mode, you must race the track alone as fast as you can and complete three laps in the fastest time possible. To help you, Time Crates are spread throughout the track. When you run into one of these, you will freeze the clock for the number of seconds indicated on the box. If you collect all the relic crates on a track you will get a -10 second bonus on your final time. Win relics by beating the time indicated on the screen for each relic type.

**CNK Challenge:** This is just like a normal race, except that you must collect the letters *C*, *N* and *K* which are scattered throughout the track. If you can collect all three letters and still manage to come in first place, you will be awarded a CNK Token. There are four different colors of tokens. If you collect four tokens of the same color, you will unlock that color Gem Cup.

**Crystal Arena:** Once you beat the boss of a world, you will be able to unlock the Arena there. In the arena, 20 crystals are spread about. If you can collect all the crystals before time runs out, you will be awarded a CNK Token.

**Gem Cups:** A Gem Cup is a Cup Race against computer opponents. The Gem Cups are accessed through a World Gate in Velo's Citadel. If you win one of these cups, you will be awarded a Gem.

To defeat Velo and get back to Earth, you'll need to collect all 12 trophies and all four boss keys. Once you collect these items, you'll earn the right to challenge the Galactic Champion on his personal racing track. If you manage to beat him there, then freedom is yours...or is it?

## KART POWER-UPS

You will find these scattered across the track while doing laps or battle.

### Boosts

Boosting is crucial to winning a race in *Crash Nitro Kart*. Every time you boost, you'll go a bit faster than your kart's normal top speed for a little while. There are a few ways to get a boost in CNK:

- **Boost Pads** – The easiest way to get a boost is to run over one of the black-and-green boost pads that you'll find throughout the tracks. Make sure you hit as many of these as you can, because you know your opponents will!
- **Starting Boosts** – If you pump the gas at the start of the race, you can get a boost off the line.
- **Aku Boost** – If you press and hold the gas button at the right time when you're being reset onto the track by Aku Aku or Uka Uka, you can get a boost to help you catch up.
- **Turbo Canisters** – Another simple way to get a quick boost is to pick up one of these turbo canisters from an item crate. Just hit the fire button and take off!
- **Jumping Boosts** – If you hit the jump button just as you go over a ramp, your racer will fly into the air. The higher you can get your kart to go, the bigger a boost you will get when you land. Fly through the air as high as you can to get ahead.
- **Power Slide Boosts** – Power Slide Boosts are difficult to master, but they'll give you a huge advantage on the track. To do a Power Slide Boost, go into a power slide by holding down the hop button, and steer left or right before your kart lands. While sliding, the curved boost gauge will appear next to your kart. When the gauge goes from green to red, press the boost button and your kart will get a boost. After every boost, you can get another one by pressing the boost button when the gauge turns red. Remember that the higher the meter goes, the more powerful the boost you'll get.

### Crates

There are four types of crates that you will run into on the tracks.

- **WEAPONS CRATES** – Drive your kart through a weapons crate to break it apart and collect the power-up inside. These are marked with a question mark and usually come in sets of four.
- **MULTIPLIER CRATES** – These special weapons crates contain three of a certain weapon, such as Bowling Bombs, Homing Missiles, or Turbo Boost. They are marked with an “X” and are usually found in hard-to-reach spots on the track.
- **WUMPA CRATES** – These crates full of wumpa will help you get juiced quick! Run through one to pick up a bunch of fruit. Wumpa crates are unmarked.
- **ACTIVATION CRATES** – These crates don’t give you anything when you drive through them. Instead, they activate a trap to slow down the other racers! Crash through them at the right time to see your opponents flattened, burned, or rolled over. These crates are marked with an exclamation point.

### Power-ups

These useful items can be found in the Weapons crates, but your kart can carry only one of them at a time. When you have collected 10 wumpa fruit, your weapons become juiced for even more power!

**TURBO BOOST** – A free bottle of boost! Use this to get an extra boost of speed and zip ahead of your opponents or out of the way of a missile.

*Juiced* – Get an even longer and bigger boost.

**BOWLING BOMB** – When Velo goes bowling, he doesn’t fool around! These bombs shoot out from your kart in a straight line until they explode against a wall or, hopefully, another kart! If your aim is a little off, you can detonate the bomb remotely when it’s next to your target. To do this, just press the fire button again.

Or if there’s a kart (or missile) on your tail, hold down on the directional pad or left thumbstick and press the fire button to shoot the bomb backwards.

*Juiced* – The bomb moves faster and the explosion radius is even bigger.

**HOMING MISSILES** – These lock onto the nearest opponent you can see and zoom after him. They’ll explode on contact and send your target into a killer tumble. If you see a set of crosshairs on your character, it means you’ve been targeted, so start dodging!

*Juiced* – The missile goes faster and tracks better.

**TNT CRATE** – Drop these on the track to give the racers behind you a nasty surprise. If you run into one of these killer crates, it’ll latch onto your head and start counting down. When the timer runs out, you’ll wipe out when it explodes in your face. Try hopping madly to get it off your head.

*Juiced* – Your TNT crate will be upgraded to a green Nitro crate that will explode as soon as someone hits it.

**STATIC ORB** – These freestanding spheres of electric charge will shock anyone foolish enough to drive into one. Not only will it slow them down, but it will also short out the circuits in their kart and change their weapon to something else.

*Juiced* – The orb will now be drawn to the karts that drive by it. It will also short out the karts even more, causing their steering to be reversed for a short time.

**INVINCIBILITY MASK** – Activate this item to get your team’s mascot to spin around your kart in a protective shield for a short time. While the mask is active, weapons and hazards can’t hurt you, and any karts that you “accidentally” bump into will spin out. You’ll also go slightly faster while you’re using it. Be careful not to fall off the edge though, or you’ll lose your invincibility.

*Juiced* – Your mascot mask will stick around even longer.

**POWER SHIELD** – This protective green bubble will save you from getting hit by one weapon or hazard. You can also attack your opponents while it's on by bumping into them. Once you get hit by something or run into someone, the shield will disappear. It will also fade away after a few seconds, even if you don't use it.

**Juiced** – The blue juiced bubble still goes away when you hit something, but it has no time limit.

**ICE MINE** – This mine will put anyone who runs over it into a giant ice cube that causes their kart to spin out. Put it near tight corners to cause less wary racers to fly right off the edge. If you need to slow down someone in the lead, you can also hold up on the directional pad or left thumbstick and press fire to toss the ice mine ahead of you.

**Juiced** – The ice cube will take longer to melt and cause the kart to drive like it's on ice.

**N. TROPY CLOCK** – This wicked watch will let you alter time and slow down every other kart on the track. When you activate it, everyone else will spin out and time will slow down for them. You'll be protected from the time vortex and speed by the other racers as they crawl along. This is a great way to come from behind, so take advantage of it. This item is found only in race modes.

**Juiced** – The time effect will last even longer.

**TORNADO TOP** – You can easily even the odds a little with this powerful item. When you release this super cyclone, it will immediately home in on whoever is in first place and catch his kart up in a mini tornado. Of course, anyone unlucky enough to get in its path on the way to its target will also get caught up in a tiny twister. You'll find this item only during race modes.

**Juiced** – The top will go even faster than normal.

**INVISIBILITY** – Turn this on to become invisible to all your opponents. You'll still see a shadow of yourself, but no one else in the arena will be able to see you or your arrow. Great for sneak attacks or flag steals, this item is only available in battle mode.

**Juiced** – Stay invisible for even longer.

**SUPER ENGINE** – Replace the engine in your kart with something pumping out a bit more horsepower. For a short time, whenever you press the accelerate button, you'll zip around faster than any kart in the arena. It's just the thing for outrunning speeding missiles or grabbing a flag. The engine will run out after a few seconds, so use it or lose it! This item is available in only battle mode.

**Juiced** – The engine lasts even longer.

**RED EYE MISSILE** – Fire off this super warhead to track down your enemies wherever they go! This special version of the homing missile comes with a remote control and a video monitor. Once you fire it off, you can press the fire button again to take control of it. You'll be able to see from a camera in the nose of the missile. Steer it towards your enemies using the left thumbstick. If it hits a wall or a kart, it will explode, damaging anyone nearby. But remember, you can't drive around while you steer the missile, which makes your kart a sitting duck! You'll pick up this special missile in only battle mode.

**Juiced** – The explosion from the missile is even bigger, and the missile is easier to steer.

## OPTIONS

### Main Menu Options

To navigate the Options Menu, press the directional pad up or down to select an option, then press left or right to change it.

### FX Volume

Adjust the volume of the sound effects in the game.

### Music Volume

Adjust the volume of the music in the game.

### Voice Volume

Adjust the volume of the characters' voices.

### Controller Vibration

Set controller vibration on or off.

### Controller Configuration

Choose from different controller setups.

## HINTS AND TIPS

### Avoiding Missiles

Missiles can be tough to get away from, but there are a few tricks you can try to get out of their path. The easiest way to escape a missile is to drop an item (like a TNT crate or an ice mine) behind you or shoot a bomb backwards at it. The closer the missile is when you do this, the better the chance you have of blocking it.

### Shortcuts

There are several shortcuts throughout the tracks that you can take to get ahead of the competition. Keep an eye out for them off the beaten path.

### Get Juiced!

Remember, if you have 10 wumpa fruit, you'll become juiced. This means that your top speed goes up and all your weapons are more powerful. Being juiced can give you the edge you need to win a race.

### Team Power-up Meter

If you are in range of your teammate, then your team meter will slowly fill up. Once it is full, you can activate your team frenzy ability with the White button. Using this will give you unlimited weapons for a short time. When your team meter empties, or if you are attacked by an enemy, or if you fall off the track, your frenzy will end.

## EXTRAS

Crash Nitro Kart features some exciting extras.

### **Arena Editor**

This gives you the power to put items wherever you want in the Battle Arenas. Placing items is like playing the game. Drive around the arena, then hit the power-up button to drop the item. It's as simple as that!

To select an item to drop, use the toggle HUD button. This will cycle through all the different objects:

- **Wumpa Crates.** These are for all Battle Modes.
- **Power-Up Crates.** These are for all Battle Modes.
- **Multiplier Crates.** These are for all Battle Modes.
- **TNT Crates.** These are for all Battle Modes.
- **NITRO Crates.** These are for all Battle Modes.
- **Crystals.** These are for Crystal Grab Mode.
- **Red Team Flag.** This is for Capture the Flag Mode.
- **Blue Team Flag.** This is for Capture the Flag Mode.
- **White Flag.** This is for Steal the Bacon Mode.

Using the toggle HUD button, you can also highlight the "destroy" icon in the lower left corner. When this is highlighted, you can remove any object on the map by running into it.

When you're finished, just hit the START button. From the Pause Menu, you can then select "save arena" to save your work.

However, to make sure your arena works with all Battle Modes, you must place these items before you can save:

- x 3 weapon crates
- x 1 multiplier crate
- x 1 crystal
- x 1 red flag
- x 1 blue flag
- x 1 white flag

Once you've saved your arena, you can quit the Arena Editor. The next time you load up Battle Mode, select the name of the arena you modified. Then select "Custom Arena" instead of "Default Arena." The game will load your arena. Now you're ready to play!

### **Cutscenes**

This lets you watch cutscenes from Adventure Mode. Press the directional pad left or right to switch between Team Bandicoot and Team Cortex, and press up or down to choose the movie you want to watch.

However, you can only watch cutscenes that you've unlocked. If you want to see them all, you'll have to beat Adventure Mode with both teams!

### **Credits**

The credits list the names of all the wacky people who made the game you're playing. There are a lot of names, aren't there?

## KARTS AND CHARACTERS

### *Crash Bandicoot*

Crash is strapping himself in his kart, getting ready to lead Team Bandicoot to victory! His medium build makes him an all-around racer with exceptional acceleration.

**ACCELERATION:** Excellent  
**TOP SPEED:** Average  
**TURNING:** Good

### *Coco Bandicoot*

Crash's smart kid sister now has all-new vehicles to toy with. She has programmed her kart's wheels to balance their speed better, which gives her much better turning ability.

**ACCELERATION:** Average  
**TOP SPEED:** Good  
**TURNING:** Excellent

### *Crunch*

Originally created by Dr. Neo Cortex to destroy Crash, Crunch had a change of heart and joined the bandicoot family. His tremendous bulk gives him amazing momentum and speed, but he's a bit slow to start.

**ACCELERATION:** Good  
**TOP SPEED:** Excellent  
**TURNING:** Average

### *Dr. Neo Cortex*

Crash's archenemy intends to defeat Crash once and for all with his team of racing henchmen. Like Crash, he excels at acceleration.

**ACCELERATION:** Excellent  
**TOP SPEED:** Average  
**TURNING:** Good

### *N. Gin*

This mechanical genius is Dr. Cortex's right-hand man. The rocket in his head hasn't affected his ability to rig a smooth ride on any vehicle he races.

**ACCELERATION:** Average  
**TOP SPEED:** Good  
**TURNING:** Excellent

### *Tiny*

This hulking giant has served Dr. Cortex faithfully each time he has tried to take over the world. Like Crunch, Tiny has a need for speed (of course, Tiny thinks Crunch is just a soft-hearted copycat).

**ACCELERATION:** Good  
**TOP SPEED:** Excellent  
**TURNING:** Average

### *N. Oxide*

Still bitter over previous losses to Crash and his friends, Oxide is going to do everything he can to make sure that Crash loses this time. He's brought along his cronies Zam and Zem to help him out as well.

**ACCELERATION:** Excellent  
**TOP SPEED:** Average  
**TURNING:** Good

### *N. Trance*

The egg-shaped master of hypnotism is out for revenge! He's even kidnapped Dingodile and Polar and brainwashed them so that they'll race for him. He'll try to get in the way at every turn of the track, so watch out.

**ACCELERATION:** Excellent  
**TOP SPEED:** Average  
**TURNING:** Good

## LIMITED WARRANTY

This software program, any printed materials, any online or electronic documentation (the "Program") are the copyrighted work of Vivendi Universal Games, Inc., or its licensors. All use of the Program is governed by the terms of the End User License Agreement which is provided below ("License"). The Program is solely for use by end users according to the terms of the License Agreement. Any use, reproduction or redistribution of the Program not in accordance with the terms of the License Agreement is expressly prohibited.

### END USER LICENSE AGREEMENT

- Limited Use License.** Vivendi Universal Games, Inc. ("VUG") hereby grants, and by utilizing the Program you thereby accept, a limited, nonexclusive license and right to use one (1) copy of the Program for your use on an Xbox video game system.
- Ownership.** All title, ownership rights and intellectual property rights in and to the Program and any and all copies thereof (including but not limited to any titles, computer code, themes, objects, characters, character names, stories, text, dialog, catch phrases, locations, concepts, artwork, animations, sounds, musical compositions, audiovisual effects, methods of operation, moral rights, any related documentation, and "applets" incorporated into the Program) are owned by VUG or its licensors. The Program is protected by the copyright laws of the United States, international copyright treaties and conventions and other laws. All rights are reserved. The Program may contain certain licensed materials, and VUG's licensors may act to protect their rights in the event of any violation of this Agreement.
- Responsibilities of End User.**
  - Subject to the Limited Use License as set forth above, you may not, in whole or in part, copy, photocopy, reproduce, translate, reverse engineer, derive source code from, modify, disassemble, decompile, or create derivative works based on the Program, or remove any proprietary notices or labels on the Program without the prior consent, in writing, of VUG.
  - You are entitled to use the Program for your own use, but you are not entitled to: sell, grant a security interest in or transfer reproductions of the Program to other parties in any way, nor to rent, lease or license the Program to others without the prior written consent of VUG; or exploit the Program or any of its parts for any commercial purpose.
- Program Transfer.** You may permanently transfer all of your rights under this License, provided the recipient agrees to the terms of this License.
- Termination.** This License is effective until terminated. You may terminate the License at any time by destroying the Program. VUG may, at its discretion, terminate this License in the event that you fail to comply with the terms and conditions contained herein. In such event, you must immediately destroy the Program.
- Limited Warranty.** VUG EXPRESSLY DISCLAIMS ANY WARRANTY FOR THE PROGRAM AND MANUAL(S). THE PROGRAM AND MANUAL(S) ARE PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NON-INFRINGEMENT. ANY WARRANTY AGAINST INFRINGEMENT THAT MAY BE PROVIDED IN SECTION 2-312(3) OF THE UNIFORM COMMERCIAL CODE AND/OR IN ANY OTHER COMPARABLE STATE STATUTE IS EXPRESSLY DISCLAIMED. The entire risk arising out of use or performance of the Program remains with You, however VUG warrants the disc(s), on which the Program is furnished, to be free from defects in materials and workmanship, under normal use, for a period of ninety (90) days from the date of delivery. VUG's sole liability in the event of a defective disc shall be to give You a replacement disc. Some states do not allow the exclusion or limitation of incidental or consequential damages, or allow limitations on how long an implied warranty lasts, so the above limitations may not apply.
- Limitation of Liability.** NEITHER VUG, ITS PARENT, SUBSIDIARIES, AFFILIATES NOR LICENSORS SHALL BE LIABLE IN ANY WAY FOR LOSS OR DAMAGE OF ANY KIND RESULTING FROM THE USE OF THE PROGRAM INCLUDING, BUT NOT LIMITED TO, LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES. Some states do not allow the exclusion or limitation of incidental or consequential damages, or allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.
- Equitable Remedies.** You hereby agree that VUG would be irreparably damaged if the terms of this License were not specifically enforced, and therefore you agree that VUG shall be entitled, without bond, other security, or proof of damages, to appropriate equitable remedies with respect to breaches of this License, in addition to such other remedies as VUG may otherwise have available to it under applicable laws. In the event any litigation is brought by either party in connection with this License Agreement, the prevailing party in such litigation shall be entitled to recover from the other party all the costs, attorneys' fees and other expenses incurred by such prevailing party in the litigation.
- Miscellaneous.** This License shall be deemed to have been made and executed in the State of California, and any dispute arising hereunder shall be resolved in accordance with the law of the State of California. This License may be amended only by an instrument in writing executed by both parties. This License constitutes and contains the entire agreement between the parties with respect to the subject matter hereof and supersedes any prior oral or written agreements.
